

SAP Information Sheet

SAP Solutions for Small Businesses
and Midsize Companies
SAP Business One

Quick Facts

Overview

A man with grey hair, wearing a light-colored suit jacket, a light blue shirt, and white trousers, is standing in front of a modern building with large glass windows. He is holding a tablet computer and looking at it. A suitcase is visible at his feet. The background shows a cityscape with buildings and trees.

SAP® Business One Mobile App for iPhone and iPad

The Best-Run Businesses Run SAP™

Quick Facts

Overview

Summary

With the SAP® Business One mobile app for iPhone and iPad, you get immediate access to the most relevant information to enable you to run your business from any location, at any time. This app allows you to access the SAP Business One application for small businesses. You can stay informed about the business, view reports, manage contacts, and handle sales, service, and operational activities.

Objectives

- Access, create, and change all relevant information so employees can make better decisions and respond to customer needs faster
- Ensure critical information is always at the fingertips of those who need it most
- Integrate the mobile solution with your back-end software system

Solution

- Mobile app that enables real-time access to the enterprise resource planning (ERP) functions of SAP Business One and SAP Business One, version for the SAP HANA® platform

- Customized dashboards for viewing key performance indicators (KPIs)
- Reports from SAP Crystal Reports® software
- Enterprise search for intelligence gathering and decision making

Benefits

- Let executives, managers, sales reps, and service technicians stay informed and manage their business
- Make sales and service mobile, for faster deals and efficient service
- Drive greater productivity by making employees mobile with a broad set of mobile functionality
- Respond directly and save time on business processes
