

Food Distribution

Jonluca Neal

Jonluca Neal Chooses SAP and aclaros to Further Their Growth Ambitions

Jonluca Neal, Canada's largest national, family-owned natural food distribution company, is committed to achieving growth and keeping healthy food choices accessible to Canadian consumers.

Our implementation went exactly as planned – without any disruption to our business. Today, SAP Business One provides us with the visibility we need to drive decision making across all aspects of our business. SAP's functionality and ability to scale with our business make them the right choice for us today and into the future.

– *Casey Eleusiniotis, Chief Development Officer, Jonluca Neal*

To meet those objectives, the company needed a new ERP solution that would improve the integration of management and logistics processes and deliver better and clearer visibility across the business.

Jonluca Neal chose SAP Business One to achieve their ambitions and support growth going forward—and aclaros as their trusted implementation partner.

Why SAP Business One?

- **Real time view** - SAP's ability to pull together data from key areas of their business – from financial to inventory – providing access to real time data enabling faster, smarter business decisions.
- **Integration with supplier and customer systems** - SAP's ability to integrate with platforms such as work execution systems and the company's AI voice picking system, providing end-to-end visibility.

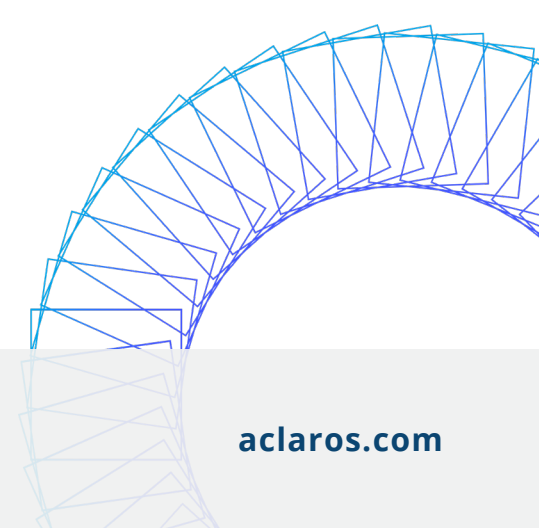

- **Automated Reporting** - Automated reports meant their team would have more time to focus on other, higher-value work, while SAP's intuitive customer interface would enable the team to get the most out of the system.

In choosing aclaros, Jonluca Neal knew they'd be working with an implementation partner who would combine a deep technical understanding of SAP with the ability to fine-tune the solution to meet the company's specific needs.

Implementation of SAP Business One was completed on time, on budget. Today, SAP provides the visibility Jonluca Neal it needs to drive better decision-making across the entire business, with operations, sales, administrative and finance data integrated into a single, comprehensive source.
